

2016 World Energy Issues Monitor

A climate of innovation – responding to the commodity
price storm

About the World Energy Council

Principal impartial network of leaders and practitioners promoting an affordable, stable and environmentally sensitive energy system for the greatest benefit of all.

UN-accredited global energy body, representing the entire energy spectrum:

- Over 3000 member organisations in almost 100 countries
- Representing all energy technologies
- From governments, private and state corporations, academia, NGOs and energy-related stakeholders

Informs global, regional and national energy strategies:

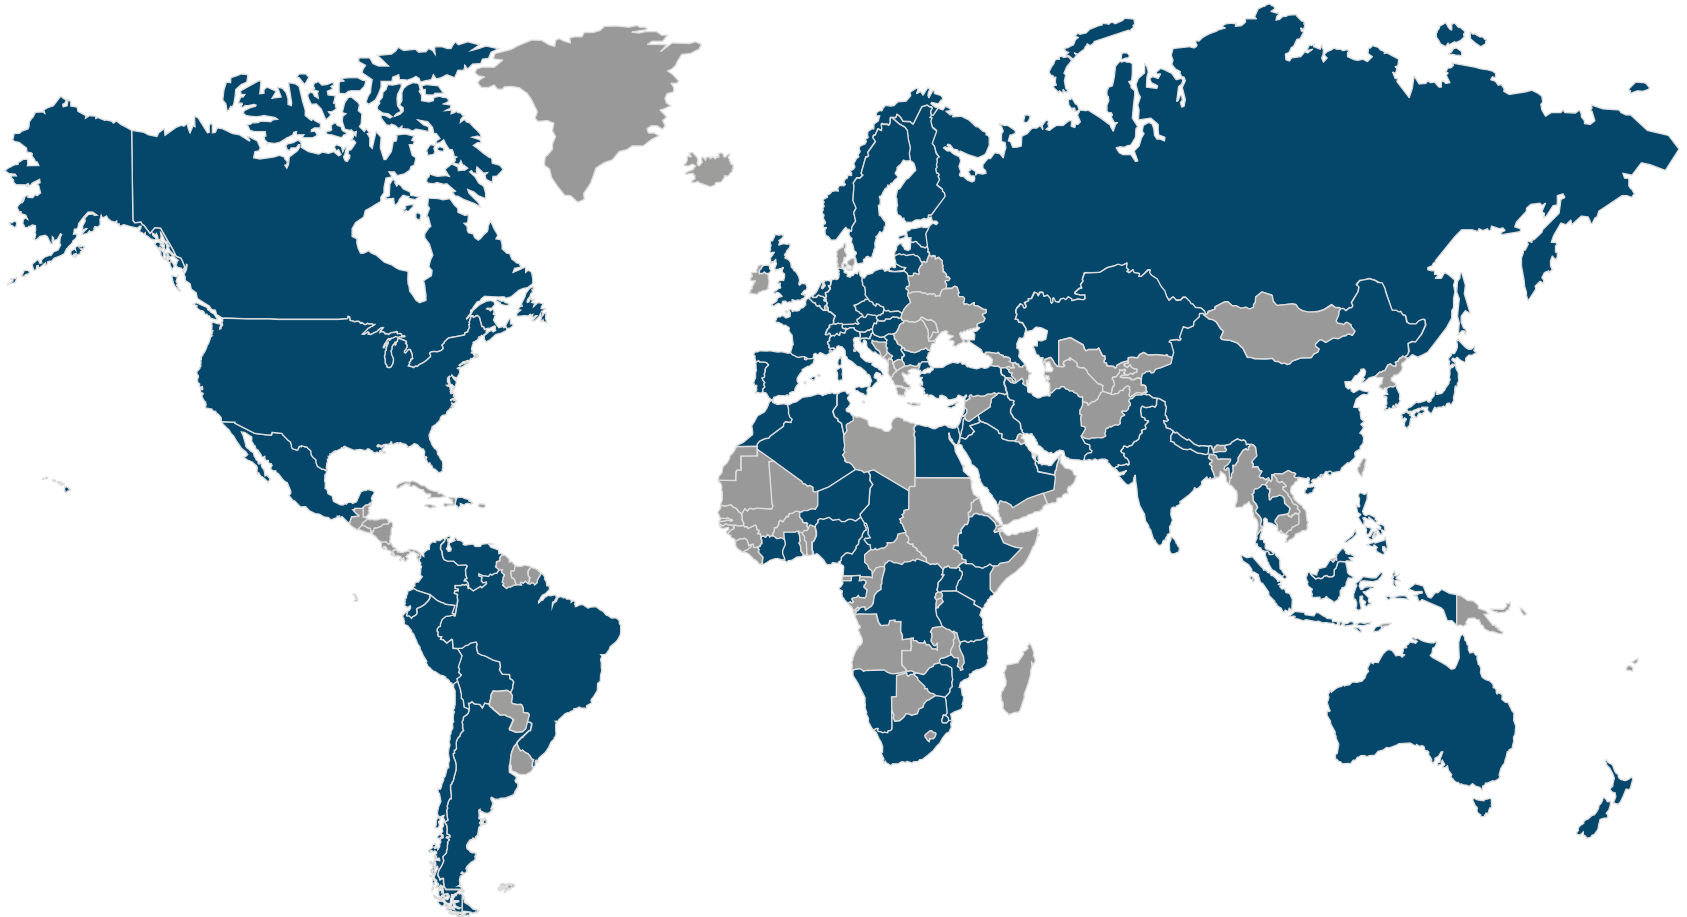

- Hosts high-level events, including the World Energy Congress 2016
- Publishes authoritative studies
- Works through its extensive member network to facilitate the world's energy policy dialogue

About the World Energy Issues Monitor

The aim of the World Energy Issues Monitor is to ensure that energy leaders across the world better understand the reality of their operating environment so that they can make more informed decisions towards a sustainable energy future.

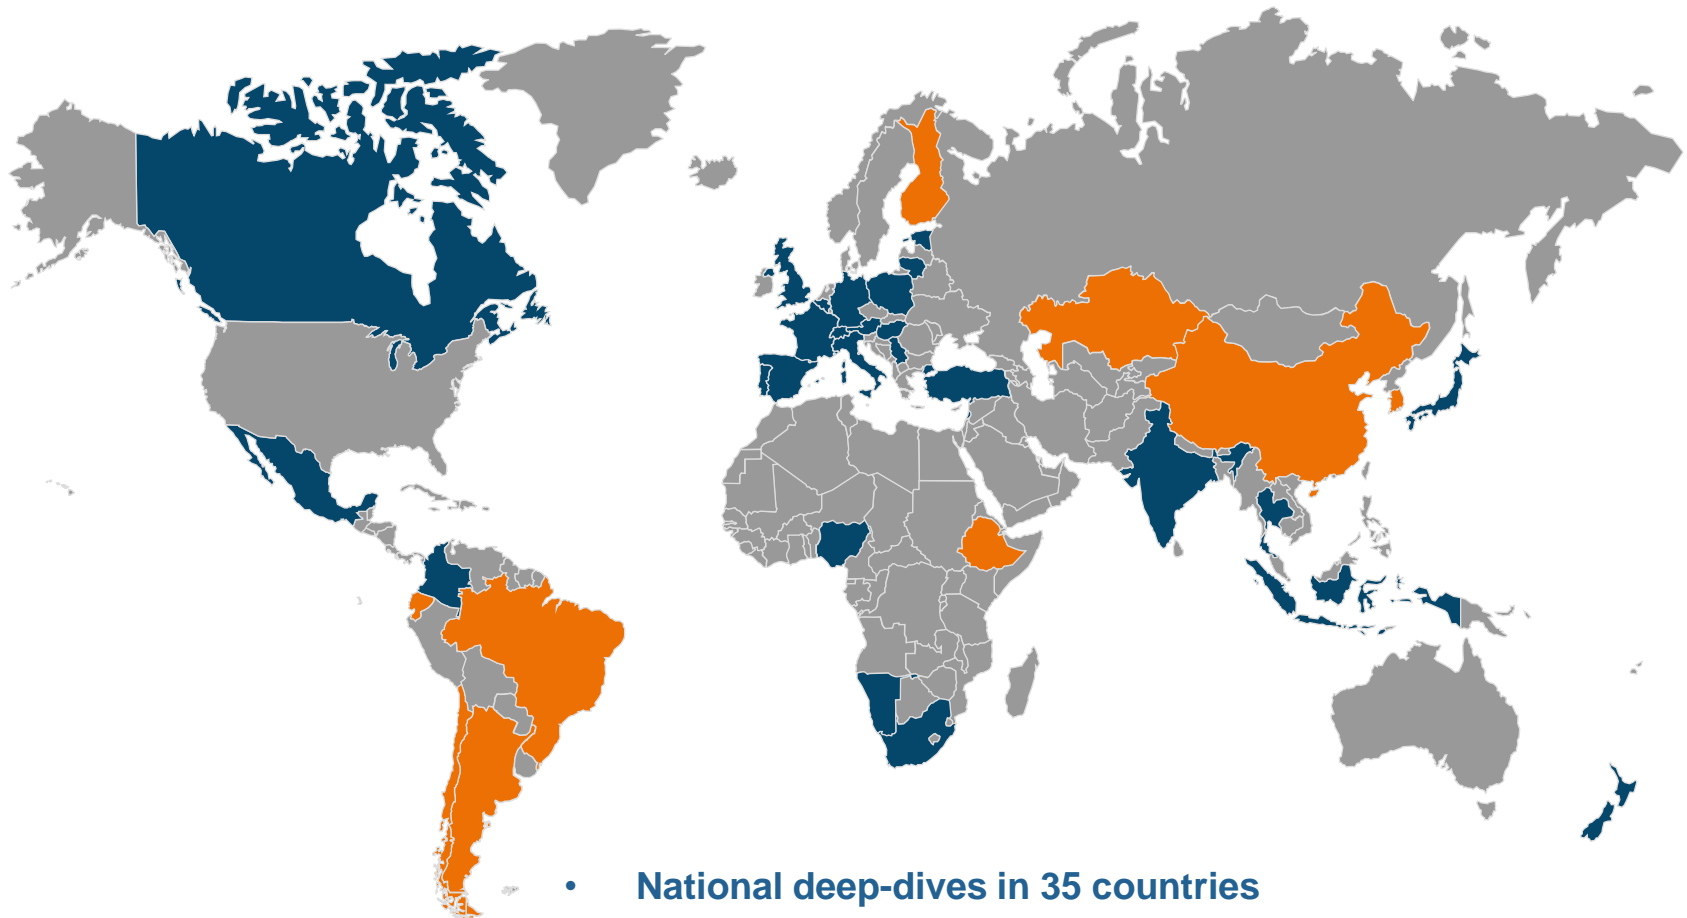

Now in its seventh year, the latest 2016 World Energy Issues Monitor represents the insights of over 1200 energy leaders in 90 countries representing all parts of the energy sector. It brings together the viewpoint of both industry and policy leaders along with experts from the World Energy Council's community.

2016 - contributing countries

- Over 1200 energy leaders in 90 countries

2016 - national deep-dive countries

- National deep-dives in 35 countries
- New for 2016: Argentina, Brazil, Chile, China, Ecuador, Ethiopia, Finland, Kazakhstan and Korea (Rep.)

Section 3A

REGIONAL - OVERVIEW

Regional perspectives

- Africa
- APEC
- Asia
- Europe
- Latin America & the Caribbean (LAC)
- Middle East & North Africa (MENA)
- Non OECD
- North America
- OECD
